MESSAGE FROM PATRON

I am happy to meet you all through this Newsletter and hope that this note finds you healthy and safe during this very difficult time in our region, nation and the entire world.

A little over a decade and still counting, Dr. K.C.G Verghese Charitable Foundation started in the year 2006 in loving memory of Dr.K.C.G. Verghese, the Founder Chairman of Hindustan Group of Institutions with an aim of transforming and bringing a ray of hope in the lives of the needy, underprivileged and the marginalized section of the Society has never faltered.

The vision of our Foundation Care, Concern & Compassion are manifested in many ways through Medical help, Scholarships and Community outreach activities partnering with Hindustan Group of Institutions, Ys Men International, South India Region, Rotary International and other NGOs.

The involvement of the students and faculty of Hindustan Group of Institutions in reaching out to the Society at large is commendable. I take this opportunity to mention a few remarkable contributions of the Trust towards the Society. The contribution of Rs.50 lakhs to the Tamil Nadu Chief Minister's Covid Relief Fund to restore normalcy in the State and the oneness expressed with the public during this pandemic by contributing immensely with its innovation and relief activities over Rs.1.14 crores.

God has selected us to be resourceful because he believes in our sense of responsibility. He has entrusted us a talent that can be used for his glory and to light others world. We must do it individually and collectively, in reaching down and lifting people up.

Keeping in mind the objectives of the Foundation, if we work together we can make this world a beautiful place to live.

God bless us all!

Drive Your Dreams |

Only a nation built on strong basic principles of economics will stand the test of time. It is for every one of us to think about where this country is headed and see what we can do individually and collectively to help India come out of the red. We are billion-strong nation of talented and diligent people. we don't really need to leave our home ground in search of greater pastures. It breaks my heart when I see brilliant and educated youngsters queuing up in front of the foreign embassies for visas. I wish I could tell them there are plenty of things they can do right here in India. Together we have to build a better nation.

I am reminded of the words of Martin Luther King Jr., "Even if I knew that tomorrow the world would go to pieces, I would still plant my apple tree."

This is what I have tried to do.

I wish I had the strength to do more.
